MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying financial statements of the Town of Black Diamond (the "Town") are the responsibility of management and have been approved by the Town's Council. The financial statements have been prepared in conformity with Canadian public sector accounting standards established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants, using management's best estimates and judgments, where appropriate. In the opinion of management, these financial statements reflect fairly the financial position, the results of its operations, changes in net financial assets, and cash flows of the Town within reasonable limits of materiality.

A system of internal accounting and administrative controls is maintained by management to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition and that the financial records are properly maintained to provide accurate and reliable financial statements.

Council is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal controls. Council carries out this responsibility through regular meetings with management throughout the year to review significant accounting and auditing matters.

These financial statements have been audited, in accordance with Canadian generally accepted auditing standards, by KPMG LLP ("KPMG"), who were appointed by Council. KPMG have full and unrestricted access to management and Council to discuss their audit and related findings. The Independent Auditors' Report outlining the scope of their examination and their opinion on the financial statements is presented on the following page.

INDEPENDENT AUDITORS' REPORT

To the Members of Council of the Town of Black Diamond

We have audited the accompanying financial statements of the Town of Black Diamond, which comprise the statement of financial position as at December 31, 2014, the statements of operations, changes in net financial assets, and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Town of Black Diamond as at December 31, 2014, and its results of operations, its changes in net financial assets, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

TOWN OF BLACK DIAMOND

Notes to Financial Statements

Year ended December 31, 2014, with comparative figures for 2013

1. Significant accounting policies:

The financial statements of Town of Black Diamond (the "Town") are the representations of management prepared in accordance with Canadian public sector accounting standards established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants. Significant accounting policies adopted by the Town are as follows:

(a) Reporting entity:

The financial statements reflect the assets liabilities, revenues and expenses, changes in net financial assets and cash flows of the reporting entity. This entity is comprised of all of the organizations that are owned or controlled by the municipality and are, therefore, accountable to the Council for the administration of their financial affairs and resources.

Inter-departmental and inter-organizational transactions and balances have been eliminated.

The schedule of taxes levied also includes operating requisitions for many educational, health, social and other external organizations that are not part of the municipal reporting entity.

(b) Basis of accounting:

The financial statements are prepared using the accrual basis of accounting. The accrual basis of accounting records revenue as it is earned and measurable. Expenses are recognized as they are incurred and measurable based upon receipt of goods or services and/or the legal obligation to pay.

Funds from external parties and earnings thereon restricted by agreement or legislation are accounted for as deferred revenue until used for the purpose specified.

Government transfers, contributions and other amounts are received from third parties pursuant to legislation, regulation or agreement and may only be used for certain programs, in the completion of specific work, or for the purchase of tangible capital assets. In addition, certain user charges and fees are collected for which the related services have yet to be performed. Revenue is recognized in the period when the related expenses are incurred, services performed or the tangible capital assets are acquired.

(c) Use of estimates:

The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the period. Where measurement uncertainty exists, the financial statements have been prepared within reasonable limits of materiality. Actual results could differ from those estimates.

TOWN OF BLACK DIAMOND

Notes to Financial Statements, page 2

Year ended December 31, 2014, with comparative figures for 2013

1. Significant accounting policies (continued):

(d) Government transfers:

Government transfers are the transfer of assets from senior levels of government that are not the result of an exchange transaction, are not expected to be repaid in the future, or the result of a direct financial return.

Government transfers are recognized in the financial statements as revenue in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met, and reasonable estimates of the amounts can be made.

(e) Investments:

Investments are recorded at amortized cost. When there has been a loss in value that is other than a temporary decline, the respective investment is written down to recognize the loss. Interest is accrued on the book value of the investments at a rate equivalent to the effective yield of each investment.

(f) Non-financial assets:

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the normal course of operations. The change in non-financial assets during the year, together with the excess of revenues over expenses provides the change in net financial assets for the year.

(i) Tangible capital assets:

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost, less residual value, of the tangible capital assets is amortized on a straight-line basis over the estimated useful life as follows:

	Years
Land improvements	10-50
Buildings	40
Engineered structures:	
Water system	50
Wastewater system	50
Other engineered structures	50
Machinery and equipment	10-45
Vehicles	7-25

Assets under construction are not amortized until the asset is available for productive use.

Notes to Financial Statements, page 3

Year ended December 31, 2014, with comparative figures for 2013

1. Significant accounting policies (continued):

(f) Non-financial assets (continued):

(ii) Contributions of tangible capital assets:

Tangible capital assets received as contributions are recorded at fair value at the date of receipt and also are recorded as revenue.

(iii) Leases:

Leases are classified as capital or operating leases. Leases which transfer substantially all of the benefits and risks incidental to ownership of property are accounted for as capital leases. All other leases are accounted for as operating leases and the related lease payments are charged to expenses as incurred.

(iv) Inventory for consumption:

Inventories held for consumption are valued at the lower of cost or net realizable value with cost determined by the average cost method.

2. Recent accounting pronouncements:

The Public Sector Accounting Board recently announced the following accounting pronouncements:

(a) Liability for contaminated sites:

This accounting pronouncement establishes standards on how to account for and report a liability associated with the remediation of contaminated sites. It is effective for fiscal years beginning on or after April 1, 2014, with early adoption encouraged.

(b) Financial instruments:

This accounting pronouncement establishes standards on how to account for and report all types of financial instruments including derivatives. Financial instruments include primary instruments and derivative instruments. It is effective for fiscal years beginning on or after April 1, 2015 for governments and for fiscal years beginning on or after April 1, 2012 for government organizations, with early adoption encouraged.

(c) Foreign currency translation:

This accounting pronouncement establishes standards on how to account for and report transactions that are denominated in a foreign currency in government financial statements. It is effective for fiscal years beginning on or after April 1, 2015 for governments and for fiscal years beginning on or after April 1, 2012 for government organizations, with early adoption encouraged.

Management is assessing the impact of the adoption of these standards on the Town's future financial statements, which is not anticipated to be significant.

TOWN OF BLACK DIAMOND

Notes to Financial Statements, page 4

Year ended December 31, 2014, with comparative figures for 2013

3. Temporary investments:

Temporary investments consist of Guaranteed Investment Certificates.

Interest earned on temporary investments varies from 1.48% to 1.75% (2013 - 1.35% to 1.94%) per annum and maturities are all within 12 months. Interest paid on cash on deposit is bank prime less 2% (2013 – bank prime less 2%).

The fair market value of temporary investments as at December 31, 2014 is \$6,065,252 (2013 - \$5,987,284) which includes accrued interest.

4. Taxes and grants in lieu of taxes receivable:

8. Long-term debt (continued):

Debenture debt is repayable to Alberta Municipal Financing Corporation and bears interest at rates ranging from 2.439% to 10.625% per annum, and mature in periods 2015 through 2027. The average annual interest rate is 5.445% for 2014 (5.445% for 2013). Debenture debt is issued on the credit and security of the Town of Black Diamond at large.

Capital leases are repayable in monthly instalments of \$1,062.13 including principal and interest. The leases will mature by September 2016.

9. Debt limits:

Section 276(2) of the Municipal Government Act requires that debt and debt limits as defined by Alberta Regulation 255/00 for the Town of Black Diamond be disclosed as follows:

	2014	2013
Total debt limit	\$ 9,249,993	\$11,820,127
Total debt	1,052,777	1,187,764
Total debt limit available	\$ 8,197,216	\$10,632,363
Service on debt limit	\$ 1,541,666	\$ 1,970,021
Service on debt	183,751	204,179
Service on debt limit available	\$ 1,357,915	\$ 1,765,842

The debt limit is calculated at 1.5 times revenue of the municipality (as defined in Alberta Regulation 255/00) and the debt service limit is calculated at 0.25 times such revenue. Incurring debt beyond these limitations requires approval by the Minister of Municipal Affairs. These thresholds are guidelines used by Alberta Municipal Affairs to identify municipalities which could be at financial risk if further debt is acquired. The calculation taken alone does not represent the financial stability of the Municipality. Rather, the financial statements must be interpreted as a whole.

(1) Salary includes regular base pay, overtime, lump sum payments, gross honoraria and any other direct cash remuneration.

(2) Employee's share of all employee benefits and contributions or payments made on behalf of employees including pension, health care, dental coverage, vision coverage, group life insurance, accidental disability and dismemberment insurance, long and short term disability plans, and professional memberships.

14. Financial instruments:

The Town's financial instruments consist of cash, temporary investments, receivables, accounts payable and accrued liabilities, employee benefit obligations, deposit liabilities, and long-term debt. It is management's opinion that the Town is not exposed to significant interest, or currency risks arising from these financial instruments.

The Town is subject to credit risk with respect to taxes and grants in place of taxes receivable and trade and other receivables. Credit risk arises from the possibility that taxpayers and entities to which the Town provides services may experience financial difficulty and be unable to fulfill their obligations. The large number and diversity of tax payers and customers minimizes the credit risk. Unless otherwise noted, the carrying value of the financial instruments approximates fair value.
