## Special Events Emergency Response Plan (ERP) and Site Map

The organizer may be required to supply an Emergency Response Plan (ERP) for the event. An emergency response plan, or ERP, is a formal written plan, developed by the organizer that identifies potential emergency conditions at the site and prescribes the procedures to be followed to minimize or prevent loss of life and property. Generally, this ERP shall include:

1. **Contact List** - including internal (event organizers, volunteers, etc.) and external (vendors, emergency services, etc.) contacts. If possible, include an organizational chart with the contact list.
2. **Risk Assessment and Mitigation** - assess the risks/hazards associated with the Special Event and identify the steps being taken to mitigate these hazards. If the Town determines the mitigation measures are not sufficient to address the risk, the applicant shall be asked to revise it.
3. **Contingency Plans** - outline the basic steps to be taken in the event of the most likely emergency situations, including if/how the event will be cancelled. The minimum requirement for an ERP for a complex Special Event is to include contingencies for the following:
  - a. First Aid/medical emergency
  - b. Fire
  - c. Lost child/person
  - d. Security incident
  - e. Site evacuation
  - f. Severe weather
  - g. Event cancellation/postponement

The ERP shall outline additional applicable contingency plans based on the nature of the event and venue.

4. **Site Map** - a map of the area where the event shall take place indication the location of all primary event activities, structures, entrances, exits, first aid, traffic control, participant routes, etc.

A complete checklist of requirements (where applicable) for the map is below;

- **Organizer location**
  - Location of organizer
- **Emergency Sites**
  - First aid station location
  - Lost person/family reunification areas
  - Marshalling/staging area
- **Event Structures**
  - Event structures (tents, stages, rides, fencing)
  - Hazards (including generators, propane, open flame and fuel storage)
  - Vendors
- **Specialized Areas**
  - Designated areas serving alcohol (show access points)
  - Pyrotechnics
- **Access/Parking**
  - Designated event vehicle parking areas
  - Designated public parking areas
  - Public access points and exits (including accessible and queueing locations)
  - Barricades
  - Flow of traffic
  - Security locations
  - Transit routes
  - Emergency access route
