

TOWN OF  
**DIAMOND  
VALLEY**

## Peer Review of Technical Documents

The Town of Diamond Valley Master Fee Schedule states that additional fees may apply for the preparation or review of documents by outside consultants (e.g. Engineering, Legal, etc.).

The Town requires a professional peer review of all technical documents (e.g. transportation impact assessments, environmental site assessments, stormwater management reports, servicing reports, geotechnical reports, etc.) submitted in support of a planning application.

In addition, the Town may require preparation of development agreements (for road construction, stormwater facilities, etc.) once a subdivision application or development permit is approved.
