

## **Declaration to Have November 8 Recognized as World Town Planning Day in Diamond Valley**

From the parks we enjoy, to the streets we travel, to the places we call home, the discipline known as planning is interwoven within our lives. Every day, planning professionals work in communities like Diamond Valley, across the country, and around the world to make a positive difference in how we live, work, and play. By leading the design and management of land and resources, planners help to protect our environment, promote health and well-being, preserve cultural heritage, and deliver community features that contribute to better outcomes for all.

On November 8, the Canadian Institute of Planners, Alberta Professional Planners Institute, and the Global Planners Network will join other planning organizations worldwide to celebrate the 76<sup>th</sup> annual World Town Planning Day. On this noteworthy day, planners come together with fellow community builders and citizens to celebrate the purpose of this important profession. World Town Planning Day represents an opportunity to reflect on the vast accomplishments of planners and to encourage curiosity and collaboration in solving modern challenges.

Therefore, in acknowledgement of this historic occasion, I, Mayor Brendan Kelly, call on the Town of Diamond Valley to declare November 8 as World Town Planning Day.

It is more important than ever before to support Registered Professional Planners in Diamond Valley, Canada, and around the world, as they purposefully plan for current and future generations.
