**Aquatera Secures Operations and Maintenance Contract with the Town of Diamond Valley**

GRANDE PRAIRIE – Aquatera Utilities Inc. is pleased to announce that it has entered a five-year operations and maintenance contract with the Town of Diamond Valley, beginning January 1, 2026. Under this agreement, Aquatera will work closely with the Town to oversee the operations and maintenance of Diamond Valley’s wastewater treatment facility, as well as its distribution and collection systems.

This partnership reflects the trust municipalities place in Aquatera to deliver reliable, high-quality utility services and reinforces Aquatera’s commitment to collaboration and community focussed operations.

“We are honoured to partner with the Town of Diamond Valley and to support their goals of safe, efficient, and sustainable utility services,” says Vaughn Bend, Chief Executive Officer of Aquatera Utilities Inc. “Having supported communities across Alberta for over 20 years, we are excited to expand our services to southern Alberta and to build new partnerships rooted in trust, transparency, and shared success.”

Through this partnership, Aquatera will work with the Town to ensure seamless service delivery and a smooth transition, with a focus on open communication, operational excellence, and community engagement.

“This partnership represents an important step forward in ensuring the long-term stability and efficiency of our water and wastewater systems,” says Adam Davey, Chief Administrative Officer for the Town of Diamond Valley. “Working with Aquatera allows us to leverage specialized expertise while continuing to provide dependable, high-quality service to residents.”

Aquatera is committed to supporting communities, fostering collaboration, and strengthening long-term sustainability in all areas we serve.
